

I am writing to request that LPFM services not be expanded to disrupt transmission of K-LOVE, heard in my area on 91.1, 88.3 and 88.5. K-LOVE is my primary station of choice while driving and it's an important part of my commute. Its warm, friendly, funny, and encouraging style lifts my spirits and has a positive impact, especially when driving gets stressful. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, it would be a grave disappointment and disruption for faithful listeners. K-LOVE has a unique niche and meets needs in ways not found elsewhere on radio. The importance of this station to listeners is evidenced by their willingness to support the station financially, allowing K-LOVE to remain commercial-free. Choosing to pay for this service is an endorsement indeed! I believe K-LOVE's services are in the public interest. We get so much negativity in our stressful world. This source of hope and clean fun is valuable and many rely on it to help them stay positive, productive, focused, and kind. It's also one Christian station that generally appeals to all ages. Thank you for your consideration and time.
